Tensorgrip

SAFETY DATA SHEET Tensorgrip P300AA High Temp General Purpose Contact Adhesive

1. Identification			
Product identifier			
Product name	Tensorgrip P300AA High Temp General Purpose Contact Adhesive		
Product number	USA		
Recommended use of the che	emical and restrictions on use		
Application	Aerosol Spray Adhesive		
Details of the supplier of the s	∋ safety data sheet		
Supplier	Tensorgrip 5710 F St Omaha NE 68117 (402) 731 3636 (402) 731 1473 marketing.us@quin-global.com		
Emergency telephone number	<u>r</u>		
Emergency telephone	Chemtrec: 1 800 424 9300		
2. Hazard(s) identification			
Classification of the substance	e or mixture		
Physical hazards	Flam. Aerosol 1 - H222 Press. Gas, Compressed - H280		
Health hazards	Acute Tox. 3 - H301 Skin Irrit. 2 - H315 Eye Irrit. 2A - H319 Carc. 2 - H351 STOT SE 3 - H335, H336 STOT RE 2 - H373		
Environmental hazards	Not Classified		
Human health	The liquid may be irritating to eyes, respiratory system and skin. Symptoms following overexposure may include the following: Headache. Dizziness. Nausea, vomiting.		
Label elements

30-60%

10-25%

Tensorgrip P300AA High Temp General Purpose Contact Adhesive

Hazard statements	 H222 Extremely flammable aerosol. H280 Contains gas under pressure; may explode if heated. H301 Toxic if swallowed. H315 Causes skin irritation. H319 Causes serious eye irritation. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. H351 Suspected of causing cancer. H373 May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	 P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking. P260 Do not breathe vapor/ spray. P302+P352 If on skin: Wash with plenty of water. P304+P340 If inhaled: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P312 Call a poison center/ doctor if you feel unwell.
Supplemental label information	AT(o) 15.0% of the mixture consists of ingredient(s) of unknown acute oral toxicity.
Contains	Methylene Chloride, Isobutane, Propane

Other hazards

This product does not contain any substances classified as PBT or vPvB.

3. Composition/information on ingredients

Mixtures

Methylene Chloride

CAS number: 75-09-2

Classification

Acute Tox. 3 - H301 Acute Tox. 4 - H312 Skin Irrit. 2 - H315 Eye Irrit. 2A - H319 Carc. 2 - H351 STOT SE 3 - H335, H336 STOT RE 2 - H373

Isobutane

CAS number: 75-28-5

Classification

Flam. Gas 1 - H220 Press. Gas, Compressed - H280

Propane 10-25% CAS number: 74-98-6 10-25% Classification 10-25% Flam. Gas 1 - H220 10-25% Press. Gas, Liquefied - H280 10-25% Acute Tox. 4 - H332 10-25% Simple Asphyxiant - USH03 10-25%
Classification Flam. Gas 1 - H220 Press. Gas, Liquefied - H280 Acute Tox. 4 - H332
Flam. Gas 1 - H220 Press. Gas, Liquefied - H280 Acute Tox. 4 - H332
The full text for all hazard statements is displayed in Section 16.
1. First-aid measures
Description of first aid measures
General informationRemove affected person from source of contamination. Place unconscious person on their side in the recovery position and ensure breathing can take place. Get medical attention if any discomfort continues.
nhalationMove affected person to fresh air and keep warm and at rest in a position comfortable for breathing. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention.
ngestion Get medical attention immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.
Skin ContactRemove affected person from source of contamination. Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if any discomfort continues.
Eye contact Remove any contact lenses and open eyelids wide apart. Only remove contact lenses if the person is conscious, coherent and they can remove them themselves If adhesive bonding occurs, do not force eyelids apart. Continue to rinse for at least 15 minutes. If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.
Nost important symptoms and effects, both acute and delayed
General information High concentrations may cause central nervous system depression resulting in headaches, dizziness and nausea. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
nhalation Prolonged or repeated exposure may cause the following adverse effects: Irritation of nose, throat and airway. Coughing. Headache.
ngestion Prolonged or repeated exposure may cause the following adverse effects: Gastrointestinal symptoms, including upset stomach. Nausea, vomiting. Diarrhea.
Skin contact Prolonged contact may cause redness, irritation and dry skin.
Eye contact Prolonged or repeated exposure may cause the following adverse effects: Irritation and redness, followed by blurred vision.
5. Fire-fighting measures
Extinguishing media
Suitable extinguishing media Extinguish with alcohol-resistant foam, carbon dioxide or dry powder.
Jnsuitable extinguishing Do not use water jet as an extinguisher, as this will spread the fire. nedia
Special hazards arising from the substance or mixture

Specific hazards	Pressurized container: Must not be exposed to temperatures above 50°C/120°F Containers can burst violently or explode when heated, due to excessive pressure build-up. Vapors are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back.
Advice for firefighters	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
6. Accidental release measure	S
Personal precautions, protectiv	ve equipment and emergency procedures
Personal precautions	For personal protection, see Section 8. No smoking, sparks, flames or other sources of ignition near spillage.
Environmental precautions	
Environmental precautions	Avoid discharge into drains. Contain spillage with sand, earth or other suitable non- combustible material.
Methods and material for conta	ainment and cleaning up
Methods for cleaning up	Stop leak if possible without risk. Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb in vermiculite, dry sand or earth and place into containers. Wash thoroughly after dealing with a spillage.
7. Handling and storage	
Precautions for safe handling	
Usage precautions	Avoid contact with skin and eyes. Keep away from heat, sparks and open flame. Provide adequate ventilation. Avoid inhalation of vapors. Use approved respirator if air contamination is above an acceptable level. Container must be kept tightly closed when not in use. Use explosion proof electric equipment. Avoid discharge into drains or watercourses or onto the ground.
Advice on general occupational hygiene	Do not eat, drink or smoke when using this product.
Conditions for safe storage, in	cluding any incompatibilities
Storage precautions	Keep away from heat, sparks and open flame. Keep container tightly closed. Keep only in the original container. Pressurized container: Must not be exposed to temperatures above 50°C/120°F
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.
8. Exposure Controls/personal	protection
Control parameters Occupational exposure limits Methylene Chloride Long-term exposure limit (8-ho A3 Short-term exposure limit (15-ho Long-term exposure limit (8-ho Isobutane	minute): OSHA 125 ppm

Long-term exposure limit (8-hour TWA): ACGIH 1000 ppm

Long-term exposure limit (8-hour TWA): NIOSH: National Institute of Occupational Safety and Health 800 ppm 1900 mg/m³

Propane

Long-term exposure limit (8-hour TWA): NIOSH: National Institute of Occupational Safety and Health 1800 mg/m³ 1000 ppm Long-term exposure limit (8-hour TWA): OSHA 1800 ppm 1000 mg/m³

ACGIH = American Conference of Governmental Industrial Hygienists. A3 = Confirmed Animal Carcinogen with Unknown Relevance to Humans. OSHA = Occupational Safety and Health Administration.

Exposure controls

Protective equipment

Appropriate engineering controls	This product must not be handled in a confined space without adequate ventilation. Avoid inhalation of vapors and spray/mists. As this product contains ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapor or mist.
Eye/face protection	Wear chemical splash goggles.
Hand protection	Use protective gloves.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapor contact.
Hygiene measures	DO NOT SMOKE IN WORK AREA! Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly with soap and water if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke.
Respiratory protection	Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit. If exposure levels are likely to be exceeded, use a full face mask fitted with an organic AXP3 filter for short term low level exposures. For long term or high level exposures, compressed airline breathing apparatus should be used.

9. Physical and Chemical Properties

Information on basic physical and chemical properties	
Appearance	Aerosol.
Color	Clear Red.
Odor	Organic solvents.
Initial boiling point and range	Not determined.
Flash point	Not determined.
Upper/lower flammability or explosive limits	Not determined.
Vapor density	Not determined.
Relative density	1.22
Solubility(ies)	Negligibly soluble in water
Volatile organic compound	This product contains a maximum VOC content of 160.5 g/l.

10. Stability and reactivity		
Stability	Stable at normal ambient temperatures and when used as recommended.	
Conditions to avoid	Avoid heat, flames and other sources of ignition. Avoid contact with the following materials: Oxidizing agents. Reducing agents.	
Materials to avoid	Strong oxidizing agents. Aluminum. Magnesium. Amines. Strong alkalis.	
Hazardous decomposition products	Fire creates: Vapours/gases/fumes of: Carbon monoxide (CO). Carbon dioxide (CO2). Aldehydes. Hydrocarbons.	
11. Toxicological information		
Information on toxicological e	ffects	
Acute toxicity - oral		
ATE oral (mg/kg)	160.0753	32957
<u>Acute toxicity - dermal</u> ATE dermal (mg/kg)	2,071.56	3308851
Acute toxicity - inhalation		
ATE inhalation (gases ppm)	30,000.0	
ATE inhalation (vapours mg/l)	73.3333	3333
Toxicological information on in	ngredients.	
		Methylene Chloride
Acute toxicity - o	ral	
Acute toxicity or mg/kg)	al (LD₅o	2,000.0
Species		Rat

Species		Rat
ATE inhalation (mg/l)	vapours	11.0
Carcinogenicity		
Carcinogenicity		Cancinogenicity - rat - inhalation Limited evidence of carcinogenicity in animal studies

Target organ for carcinogenicity	Tumerigenic: Carcinogenic by RTECS criteria. Endochrine: Tumors	
IARC carcinogenicity	IARC Group 2B Possibly carcinogenic to humans.	
NTP carcinogenicity	Reasonably anticipated to be a human carcinogen.	
Specific target organ toxic	ty - single exposure	
STOT - single exposure	May cause respiratory irritation. May cause drowsiness or dizziness	
Specific target organ toxic	ty - repeated exposure	
STOT - repeated exposure	 Inhalation - May cause damage to organs through prolonged or repeated exposure -Central nervous system Oral - May cause damage to organs through prolonged or repeated exposure -Liver, blood. 	
General information	RTECS: PA8050000	
Isobutane		
Toxicological effects	No information available.	
Carcinogenicity		
Carcinogenicity	Does not contain any substances known to be carcinogenic.	
Inhalation	Suffocation (asphyxiant) hazard	
Skin Contact	Spray will evaporate and cool rapidly and may cause frostbite or cold burns if in contact with skin.	
Eye contact	Spray will evaporate and cool quickly and may cause frostbite or cold burns if in contact with skin.
